Summary

Skilled and Self-driven Full-Stack Developer with over 5 years of hands-on experience in software development. Skilled in building modern, efficient, and scalable web applications. Strong proficiency in JavaScript/TypeScript with 3+ years in React and 2+ years in Next.js. Experienced in backend development with 2+ years using FastAPI. I enjoy turning ideas into real, functioning products, and I'm constantly learning new technologies to stay ahead.

Skills

Frontend

- React (3+ years)
- Next.js (2+ years)
- HTML5, CSS3, JavaScript, TypeScript
- Responsive Design & UI/UX Principles

Backend

- Python, FastAPI (2+ years)
- RESTful APIs, Authentication, Security

Projects & Experience

Full-Stack Developer

Freelance / Personal Projects – Remote

2020 – Present

- Developed several personal and experimental full-stack applications using React, Next.js, and FastAPI
- Built a custom shell in Go and Python CLI tools
- Currently building a computer vision-based AI room comparison system
- Created a Notion game dev template system and a custom comparison page for a real estate listing project

Education

Campus Kompas – Middle School Graduation Certificate

Noordlaan 10, 9230 Wetteren, Belgium

October 2024 – June 2025

Graduated with a 76% average. (Missed 2 years of French education while residing in the Netherlands, which affected the final average.)
